

Bracket Pro Serie 45™

Mounting system for Monitor / Defibrillator Physio-Control LP-20

Characteristics

- Lightweight
- Anodized coating
- Compact size
- Swivel base 360° **with locking system**
- Quick Release and re-attachment
- Safe and Easy
- immediate access
- Match with other mount system from us.

Application of use

- Crash cart
- Emergency work space
- Stretcher/cot
- Biomed shop

Advantages

- Minimum space for installation
- No vertical release
- Latex free
- Resist to the biological fluid
- Insensitive to rust
- 1 year full warranty
- Sodium resistant

Any medical equipment that has been inadequately installed in ambulances, helicopters and other emergency medical service vehicles (EMS) and crash carts, can potentially pose a serious risk or become dangerous in the event that the vehicle makes frequent or sudden stops, turns or rushed departures. This situation can result in damaged expensive medical equipment or even inflict injuries on a patient, ambulance personnel or clinic staff.

Our locking systems "**Bracket Pro Serie 45™**" are designed for fast access to the unit, with little effort in times of emergency uses. The features of this support are the very small size (weight) and the method of locking it (*no vertical movement; less potential injury overtime, and minimum space for installation*). They can be

installed in small space area and secure medical device.

To spare the expenses of costly repair or replacement of the equipment, and medical care and possible legal redress for injury, consider outfitting your crash cart, emergency workspace or biomed workshop with a deployment system for monitor and/or defibrillator.

The mounting systems offer different configurations for most external defibrillators on the market. They have many characteristics, more specifically to rotate up to 360 degrees with a locking system. The deployment of the unit is almost instantaneously and the system locked the unit after use and resist to an impact of many times the «G» Force, and drop accident situation.

Technimount System Inc sells, develops, and commercialize deployment system for medical equipment that can be fit with different brand names of defibrillator, in hospital, EMS, or military environment.

For use with model **PHYSIO CONTROL** Defibrillator « **Lifepak 20™** »

TECHNICAL SPECIFICATIONS

Product name:	Bracket Pro Serie 45
Compatibility model:	Monitor – Defibrillator Physio Control « <i>LifePak 20</i> »
Environment of use:	Hospital – Clinic – Biomed shop – Military hospital -
Material:	Base: Aluminum high density w/ anodize process Device section: Aluminum high density w/ anodize process
Temperature of use:	- 35° C @ 45° C (Direct conduction)
Impact Resistance¹:	(Drop test 1.5 M) - NOT CERTIFIED for EMS Vehicle
Nbr of installation point:	4 points on surface base: 3 points on device mount
Dimensions (both parts assy- overall):	8" With. X 7-1/2" Depth. X 1-1/4" Height. (pc.)
Rotation:	360° degrees with soft locking system (small base) 15° degrees both sides with locking system (Long base)
Features:	- Compatible with Technimount cot system - Compatible with extended surface base - Easy access to all the connectors
Weight:	Total (2 parts) 2.9 lbs - device section: 1.0 lbs. –
Options:	With or Without Power charger adapter / ETC02 Extended surface base (longer) Spacer (height extension mount 3/8", 1/2", 3/4") Table top converter (surface base cover for work space)
Locking mechanism resistance:	Over than 20 000 movements without any fatigue
Part number²:	220-00-PC20 "Bracket Pro Serie 45" Complete
Part number:	220-10-PC20 "Bracket Pro Serie 45" Disc only device part
Part number:	100-20-UN "Bracket Pro Serie 45" Base part only (short)

Installation suggested

¹ *Technimount System Inc* works to meet and exceed all legal requirements in the deployment system for EMS vehicles, according to the Provincial & Federal Government regulations, it may not meet your local requirements, please contact your administrator.
