# IV Pro Adapter™

Mounting system for IV Pole / Accessory compatible with Safety Arm System™

### **Characteristics**

- Lightweight
- Perfectly fits clamp block shape
- Immediate access
- Match with Stretcher Safety Arm™ System
- Available both sides of the cot

## **Application of use**

- Ambulance
- EMS Vehicles
- > Stretcher/cot
- Military Vehicles

#### **Advantages**

- Minimum space for installation
- IV Pole keeps all its functions
- Resist to biological fluids
- Rust and sodium resistant
- 1 year full warranty

Any medical equipment that has been inadequately installed in ambulances, other emergency medical service (EMS) vehicles or crash carts, can potentially pose a serious risk or become dangerous in the event that the vehicle makes frequent or sudden stops, turns or rushed departures. This situation can result in damaged expensive medical equipment or even inflict injuries on a patient, ambulance personnel or clinic staff.

The IV Pro Adapter<sup>TM</sup> is designed to allow the use of an IV pole holder on the same side as the stretcher Safety Arm System<sup>TM</sup>. The IV Pro Adapter is lightweight and profiled to perfectly fit with the clamp block shape. In this way, the stretcher could be equipped with 2 IV pole holders or simply be installed on the same side as the stretcher Safety Arm System, at your convenience.

This system also gives you the flexibility to decide on which side the IV pole holder fits best for your use, and mainly remain on the cabinet wall side, for a better use. The product is available for installation on both sides, left or right (*ref. the patient's legs*). The installation of the product is very simple and takes only a few minutes, no additional screws are needed. No modification made on the IV Pole nor the stretcher; we use the same screws, which are already on the stretcher. Furthermore, it meets all the safety requirements because the original cot system frame isn't modified.

Once installed on the cot, the IV Pro Adapter allows you to use the IV Pole exactly as the original installation. It provides all the advantages of the original installation location, plus the capacity to also use the locking system of the clamp block of the SAS without any restrictions. It's the perfect accessory to add if you wish to keep your IV Pole on the right side of the cot.

### **About Us**

**Technimount System** creates mounts and brackets for portable medical devices such as defibrillators, ventilators, and pumps, that adapt to different brands of medical equipment for OEM ambulance manufacturers, EMS users, and hospitals.

For use with the Technimount System « Safety Arm System™ »

# **TECHNICAL SPECIFICATIONS**

Product name:	IV Pro Adapter™
Compatibility model:	Technimount System – Safety Arm System Model 500 only Stryker cot – Serie 60 or 65
Environment of use:	EMS / Hospital - Clinic - Biomed shop - Military hospital -
Material:	Plate: Aluminum high density w/ black anodize process
Color finish:	Black velvet finish
Temperature of use:	N/A
Impact Resistance1:	(30«G») Plus 10% safety factor (On certified hook)
Nbr of installation point:	3 points on the original position on the cot
Dimensions (overall):	15-3/16" Length X 3-5/8" Depth. X 1/4" thickness (inch.)
Features:	<ul> <li>Available for right side or left side of the cot</li> <li>Compatible with Technimount cot system</li> <li>Compatible with Stryker Cot</li> <li>Free access to locking mechanism of the clamp block (SAS)</li> </ul>
Weight:	Total (1 part) 1.10 lb.
Options:	Available for the left side or right side (standard right side – Patient's leg) Color finish – contact sales for available colors
Locking mechanism:	Original screw set from the Stryker Cot
Part number <sup>2</sup> :	511-00-UN-BLK-LFS - Left side 511-00-UN-BLK - Right side

Suggested Installation
