

Crash Cart Flex Adapter™

Mounting adapter for Crash Carts

Characteristics

- Lightweight
- Compact size
- Quick Release and re-attachment
- Safe and Easy
- Immediate access
- Match with Bracket Pro series mount system from us

Application of use

- ER Wall installation
- Arm extension
- Intensive care
- Lifeline Emergency Carts® and other similar crash carts

Advantages

- Minimum space for installation
- Latex free
- Biological-fluid and sodium-solution resistant
- Rust-resistant
- One-year full warranty

Any medical equipment that has been inadequately installed in ambulances, other emergency medical service (EMS) vehicles or crash carts, can potentially pose a serious risk or become dangerous in the event that the vehicle makes frequent or sudden stops, turns or rushed departures. This situation can result in damaged expensive medical equipment or even inflict injuries on a patient, ambulance personnel or clinic staff.

The **Crash Cart Flex Adapter™** is designed to adapt the Lifeline Emergency Cart® mounting system to the Technimount System's **Bracket Pro Serie™** mounting solutions. By adding a Crash Cart Flex Adapter™ on the arm of the cart, a Standard or Extended Surface Base can be installed and can secure all kinds of medical devices, and you get 360 rotation of the medical device, seating on the plate of the cart.

The features of this support are the very small size and weight, but mainly the flexibility between the various medical device brands, with just a simple adapter. No modification is needed on the arm and all of its features including the arm rotation and the easy access to the medical device.

The system has been tested to meet the manufacturer's requirements and provide at all times safety and security in the hospital environment. The installation of this adapter on the Standard or Extended Surface Base is very easy and time effective.

About Us

Technimount System creates mounts and brackets for portable medical devices such as defibrillators, ventilators, and pumps, that adapt to different brands of medical equipment for OEM ambulance manufacturers, EMS users, and hospitals.

For use with Technimount [Bracket Pro Serie™](#)
