Damage or
Replacement of
Medical Equipment

Easy to Install and
Integrity of Medical
Device Respected

Uniform Use and
Compatibility with all
Technimount Systems

Long-lasting Solution
Ready to Face Any
Environment

Easy Access to the
Medical Equipment,
Connectors and
Carry-case Bags

WORKING HARD? SO ARE WE!

The Bracket Pro Serie™ 35 - Heavy Duty (BP 35 HD) is a rugged solution that was specifically designed for tougher environments and more challenging emergency situations. Made for intensive use of medical devices, this lightweight unit is thick and strong with an anodized finish of 50 microns.

When inserted into the Technimount's Standard Surface Base, it allows a 360-degree rotation of the medical device while securely locked. The deployment of the unit is nearly instantaneous allowing users to easily access the unit with minimum effort in times of emergency.

YOUR SAFETY IS OUR PRIORITY

When it comes to ambulance transport, patient and crew safety is the main concern. Providing safe transport not only applies to the vehicle itself but also to the ability to secure medical equipment.

Having robust and certified mounting systems can help avoid costly repairs, complete replacement of equipment and possible injuries to patients and crew.

ABOUT US

Technimount designs and engineers mounting solutions for different medical devices such as defibrillators, ventilators, and pumps or other devices, in hospital, EMS, or military environments. Technimount System is the only manufacturer to have a universal mounting system that can fit on multiple brands, models, and applications of portable medical equipment.

TECHNICAL SPECIFICATIONS

Product name	Bracket Pro Serie™ 35 - Heavy Duty
Compatibility model	Stryker LIFEPAK® 15' Monitor/Defibrillator
Environment of usage	EMS - Clinic - Military - Hospital
Device section material	High density aluminum with black anodization process
Disc section material	Stainless steel insert and acetal cousins
Temperature of usage	- 35° C @ 45° C (Direct conduction)
Impact Resistance	(30 G) Plus 10% safety factor, SAE J3043 certified, CRIQ ref.52286
No. of installation points	7 points on device mount and 4 points on surface base
Product size	12.7" Width × 7.9" Depth × 3.2" High (in)
Base plate thickness	3/16" with innovative shape
Rotation	<ul style="list-style-type: none">• 360° with locking system (standard surface base)• 15° both sides with locking system (extended surface base)
Features	<ul style="list-style-type: none">• Fits with or without carry-case protector• Compatible with Technimount Stretcher Safety Arm System• Compatible with Technimount standard and extended surface base• Free access to all connectors and accessories (top & back pouches)
Weight	Total (2 parts): 4.4 lb Device section: 2.3 lb
Part number	Bracket Pro Serie™ 35 HD Complete Assembly (base & bracket) 210-00-PC15-HD
Part number	Bracket Pro Serie™ 35 HD Bracket Device Section Only 210-11-PC15-HD
