SAFETY MD-TRANSPORTER™

BRACKET MOUNTING SYSTEM FOR STRETCHERS

SAFETY AND FLEXIBILITY WHERE IT MATTERS MOST

The Safety MD-Transporter secures medical devices on the left or right side of a stretcher during air and ground EMS and Critical Care Transport. A flexible solution, it is compatible with all Technimount products with an Anti-Rotation Micro Disc or Bottom Micro Disc.

With 360° rotational access, the Safety MD-Transporter enables EMS providers to easily access their medical devices during patient transport.

At Technimount EMS, we understand that EMS and Critical Care Teams need solutions that they can rely on. We design and develop quality mounting systems which are safe and flexible, allowing you to concentrate on what matters most- patient care.

Red Quick Release Mechanism to easily insert or remove the bracket

Compatible with Technimount products with an Anti-Rotation Micro Disc

Made from high-density aluminum* with silver-anodized finish

360° rotational access to the medical device

Installs on the left or right side of the stretcher

*Material may be different in some installations

TECHNICAL SPECIFICATIONS

Product Name	Safety MD-Transporter™
Product Description	Bracket mounting system to secure medical devices on the left or right side of a stretcher during air or ground EMS and Critical Care Transport.
Cot/Stretcher Compatibility	Stryker® ProXT, PowerPro, model 6085-6086, 6500 and 6506
Environment of Usage	EMS (Ground & Flight) - Hospital/Clinic, Military
Product Section Material	<ul style="list-style-type: none">• Safety MD-Transporter - Aluminum 6061-T6 Pole with Stainless Steel 304 Base• Micro Base - Aluminum 6061-T6• IV Pro Adapter - Aluminum 6061-T6
Product Finish	<ul style="list-style-type: none">• Safety MD-Transporter - Silver-Anodized Finish• Micro Base - Silver-Anodized Finish• IV Pro Adapter - Black-Anodized Finish
Temperature of Usage	-35° C @ 45° C
Certification - Ground	Designed to comply with SAE J3043
Installation	Device retained on main assembly with Red Quick Release Mechanism
Attachment Options	Anti-Rotation Micro Disc, Bottom Micro Disc
Transportation Compatibility Options	Compatible with Technimount's: <ul style="list-style-type: none">• Bracket Pro Serie®• Micro Base• IV Pro Adapter™• Safety Arm System™
Features	<ul style="list-style-type: none">• Secures medical devices directly on stretcher/cot during air and ground EMS and Critical Care Transport• Installs on the left or right side of the stretcher• Access to the medical device from all access (360° rotation)• Red Quick Release Mechanism to easily insert and remove the bracket• Resistant to biological fluids and Quaternary-type disinfectants• Vertical and Horizontal Version available
Physical Overall Dimensions	Safety MD-Transporter (Vertical) <ul style="list-style-type: none">• Width 3.94 in, Depth 3.4 in, Height 15.96 in Safety MD-Transporter (Horizontal) <ul style="list-style-type: none">• Width 3.94 in, Depth 5.95 in, Height 11.13 in
Weight	6.8 lb
Maximum Weight Capacity	Contact Technimount EMS Customer Service for more information at customerservice@technimount.com
Part Number	<ul style="list-style-type: none">• Safety MD-Transporter (Vertical) with Micro Base - 540-00-0L13• Safety MD-Transporter (Horizontal) with Micro Base - 540-00-0L14-ANG

YOUR SAFETY IS OUR PRIORITY

FEATURES

- ✓ Designed to secure medical devices directly on stretchers/cots during air and ground EMS and Critical Care Transport
- ✓ 360° rotational access to the medical device
- ✓ Installs on the left or right side of the stretcher/cot
- ✓ Compatible with the Safety Arm System™ and Technimount's Bracket Pro Serie® product line
- ✓ Made from high-density aluminium and stainless steel with silver-anodized finish
- ✓ Certified mounting system that complies with the highest industry standards and regulations for the secure transport of medical devices, SAE J3043

BENEFITS

- + Additional installation option for medical devices inside emergency vehicles, maximizing the workspace environment
- + Access to the medical device from all angles (360° rotation)
- + Increases flexibility to configure stretcher according to EMS organization protocols
- + Compatible with all Technimount products with an Anti-Rotation Micro Disc and Bottom Micro Disc
- + Both IV Pole can remain on the stretcher
- + Reduce risks of damage to the equipment and ensures the safety of patients and crews during EMS and Critical Care Transport
