PUMP CARRIER - 200 SERIES

MOUNTING SYSTEM FOR PUMPS
AND SMALL MEDICAL DEVICES

HEALTHCARE PRACTICES MADE EFFICIENT

The Pump Carrier is a flexible solution used to mount pumps and other small medical devices in hospital and clinic environments.

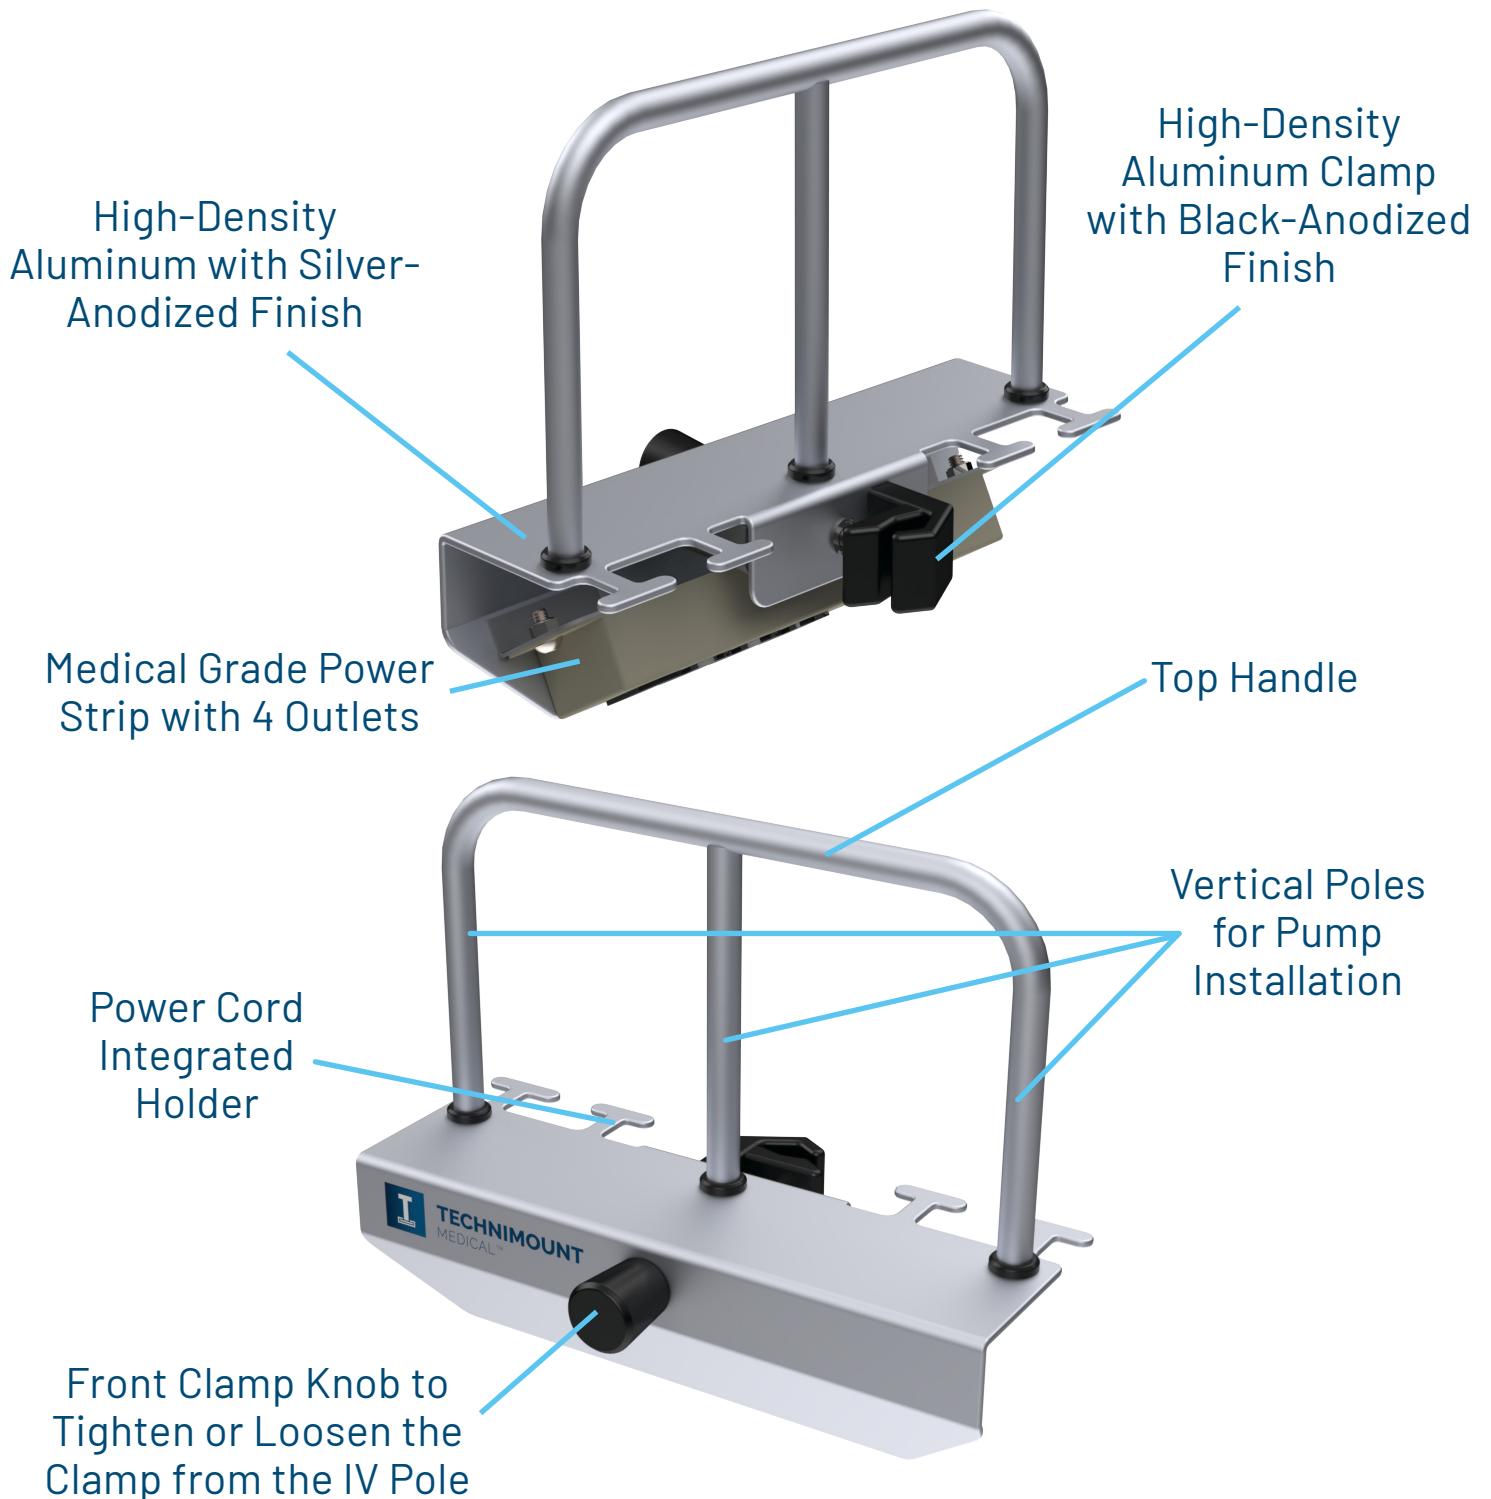

Its revolutionary Front Clamp Knob is easy to access and makes it faster and more efficient to secure or release the Pump Carrier from an IV Stand in only eight turns.

The Pump Carrier is a lightweight and robust solution designed to hold one to three pumps with horizontal configuration. Other options and accessories are also available.

At Technimount Medical, we understand that healthcare professionals need products that make their everyday practice easier. We design and develop quality solutions which are flexible and easy to use, allowing you to concentrate on what matters most - patient care.

PUMP CARRIER - 200 SERIES

PRODUCT ILLUSTRATION

TECHNICAL SPECIFICATIONS

Product Name	Pump Carrier - 200 Series
Product Description	Horizontal mounting system for one to three pumps and small medical devices
Compatibility of Medical Device	Baxter Spectrum IQ and Sigma Spectrum Infusion Pumps with a pole clamp on the back and other small medical devices
Environment of Usage	Hospital/Clinic (for indoor use only)
Product Section Material	Pump Carrier: Aluminum 5052-H32 Clamp System: Stainless Steel 304 and Aluminum 6061-T6
Product Finish	Pump Carrier: Silver-Anodized Finish
Certification Testing (In conjunction with an electrical device installed)	Designed to comply with IEC 60601-1 International Standard Third Edition
Complying with Environmental Regulations	Complying with RoHS 2, RoHS 3
Chemical Compatibility	Free Latex
Compatibility	<ul style="list-style-type: none">• Compatible with a Technimount Medical IV Stand or other IV Poles• Compatible with Baxter Spectrum IQ and Sigma Spectrum with a pole Clamp on the back
Features	<ul style="list-style-type: none">• New Design Concept with Front Handle• Lightweight and Robust Design• Made with High-Density Aluminum
Power Strip	<ul style="list-style-type: none">• Medical Grade Power Strip• Compliant with all UL and CSA Standards• 7 ft. Power Cords• 4 outlets• Rugged metal housing• Lockable individual outlet covers• Surge Protection
Weight of the Pump Carrier Only	4.57 lb
Weight of Pump Carrier with the Power Strip	7.57 lb
Maximum Load Capacity	Maximum 3 Baxter Spectrum IQ or 3 Sigma Spectrum Infusion Pumps
Physical Overall Dimensions	Width 16 in, Depth 9 in (including the front handle), Height 12.875 in
Part Number	PCH203-P4-22
Other Models and Configuration Options	Contact Technimount Medical Customer Service for more information or for other options at customerservice@technimount.com

HEALTHCARE IS OUR PRIORITY

FEATURES

- ✓ Horizontal design for pumps with improved cable management from built-in power cord cable holder
- ✓ Innovative Front Clamp Knob secures or releases the clamp from the IV pole in only eight turns
- ✓ Lightweight and robust structure made from high-density aluminum with silver and black-anodized finish
- ✓ Resistant to biological fluids and Quaternary-type disinfectants
- ✓ Integrated medical grade power strip with four outlets with surge protection
- ✓ Compatible with Technimount Medical products and other IV poles

BENEFITS

- + Securely holds from one to three pumps, with built-in power cord holders to prevent potential tripping hazard during transfer
- + Requiring less turns, the Front Clamp Knob provides easy access to quickly and efficiently secure or release the Pump Carrier from the IV pole
- + Lightweight carrier allows for safe and fast adjustments
- + Easy to clean and disinfect as Pump Carrier is resistant to a wide range of fluids and solutions
- + Conveniently plug medical devices into the integrated medical grade power strip
- + Universal clamp for increased operational flexibility
