TECHNI-TAB™ ASSISTANT

STRETCHER MOUNTING SYSTEM FOR TABLETS

SAFETY AND FLEXIBILITY WHERE IT MATTERS MOST

The Techni-Tab™ Assistant is a robust mounting system to securely install tablets on stretchers / cots for EMS and Critical Care Transport.

It is a highly flexible solution that can be installed at the patient left or patient right side of the stretcher. The Techni-Tab Assistant increases the efficiency of daily operational activities, while reducing the risk of lost or damaged equipment.

YOUR SAFETY IS OUR PRIORITY

FEATURES

- ✓ Multiple stretcher configuration options available including the patient left side, or patient right side
- ✓ Extended Mount can pivot between 0° and 45° degree
- ✓ Impact resistant locking support system to securely install the tablet to the stretcher
- ✓ Quick release mechanism to efficiently deploy the tablet from the stretcher
- ✓ Integrity of the device is respected as the bracket attaches to the tablet without screws
- ✓ Made from high-density aluminum with black anodized-finish
- ✓ Resistant to biological fluids and Quaternary-type disinfectants

BENEFITS

- + Securely install and move the tablet to various stretcher positions during patient transport
- + Clearly view the tablet screen to continue entering information during transport
- + Reduces the risk of damaged or lost equipment as the tablet is properly secured during transport
- + Quickly remove the tablet from the stretcher for fast and easy access during emergency calls
- + No interference with tablet ports, connectors, buttons, camera or microphone
- + Lightweight and robust mounting system designed for tough EMS environments
- + Easy to clean and disinfect as the structure is resistant to a broad range of fluids and solutions
