

Bracket Pro Serie™ 30

Mounting system for Monitor / Defibrillator Physio-Control LP-12

Characteristics

- Lightweight
- Compact size
- Swivel base 360° with locking system
- Quick Release and re-attachment
- Safe and Easy
- immediate access
- Match with other mount system from us.

Application of use

- Crash cart
- Ambulance
- EMS Vehicles
- Stretcher/cot
- Military Vehicles

Advantages

- Minimum space for installation
- No vertical release
- Latex free
- Resist to the biological fluid
- Insensitive to rust
- 1 year full warranty

Any medical equipment that has been inadequately installed in ambulances, other emergency medical service (EMS) vehicles or crash carts, can potentially pose a serious risk or become dangerous in the event that the vehicle makes frequent or sudden stops, turns or rushed departures. This situation can result in damaged expensive medical equipment or even inflict injuries on a patient, ambulance personnel or clinic staff.

Our locking systems **Bracket Pro Serie™ 30** are designed for fast access to the unit, with little effort in times of emergency uses. The features of this support are the very small size (weight) and the method of locking it (no vertical movement; less potential injury overtime, and minimum space for installation). To spare the expenses of costly repair or replacement of

the equipment, and medical care and possible legal redress for injury, consider outfitting your EMS vehicle or crash cart with a deployment system for monitor and/or defibrillator. The mounting systems offer different configurations for most external defibrillators on the market. They have many characteristics, more specifically to rotate up to 360 degrees with a locking system. The deployment of the unit is almost instantaneously and the system locked the unit after use and resist to an impact of many times the «G» Force.

About Us

At Technimount EMS, we understand that EMS and Critical Care Transport teams need solutions that they can rely on. We design and develop quality mounting systems which are safe and flexible, allowing you to concentrate on what matters most - patient care.

For use with model **Physio-Control Defibrillator LIFEPAK® 12**

TECHNICAL SPECIFICATIONS

Product name:	Bracket Pro Serie™ 30
Compatibility model:	Physio-Control - LIFEPAK® 12 Monitor / Defibrillator
Environment of use:	EMS / Hospital – Clinic – BioMed Dept. – Military hospital
Material:	Base: Aluminum high density w/ anodize process Device section: Aluminum high density w/ anodize process
Temperature of use:	- 35° C @ 45° C (Direct conduction)
Impact Resistance¹:	(20«G») Plus 10% safety factor (On certified hook)
Nbr of installation point:	4 points on surface base: 9 points on device mount
Dimensions (both parts assy- overall):	12-1/8" Wid. X 8" Depth. X 3-1/4" Think. overall (inch.)
Rotation:	360° degrees with locking system (small base) 15° degrees both sides with locking system (Long base)
Features:	- With Carry case protector - Compatible with Technimount cot system - Compatible with extended surface base - Free access to all connectors and accessories (top)
Weight:	Total (2 parts) 2.9 lbs - device section: 1.30 lbs. -
Options:	Extended surface base (longer) Spacer (height extension mount 3/8", 1/2", 3/4") Table top converter (surface base cover for work space)
Locking mechanism resistance:	Over than 20 000 movements without any fatigue
Part number²:	200-00-PC12 Bracket Pro Serie™ 30 Complete
Part number:	200-10-PC12 Bracket Pro Serie™ 30 Disc only upper part
Part number:	100-20-UN Bracket Pro Serie™ 30 Base part only (small)
