MEDICAL ROLL STAND - 100

MOBILE STAND FOR MEDICAL DEVICES

MAKING HEALTHCARE PRACTICES MORE EFFICIENT

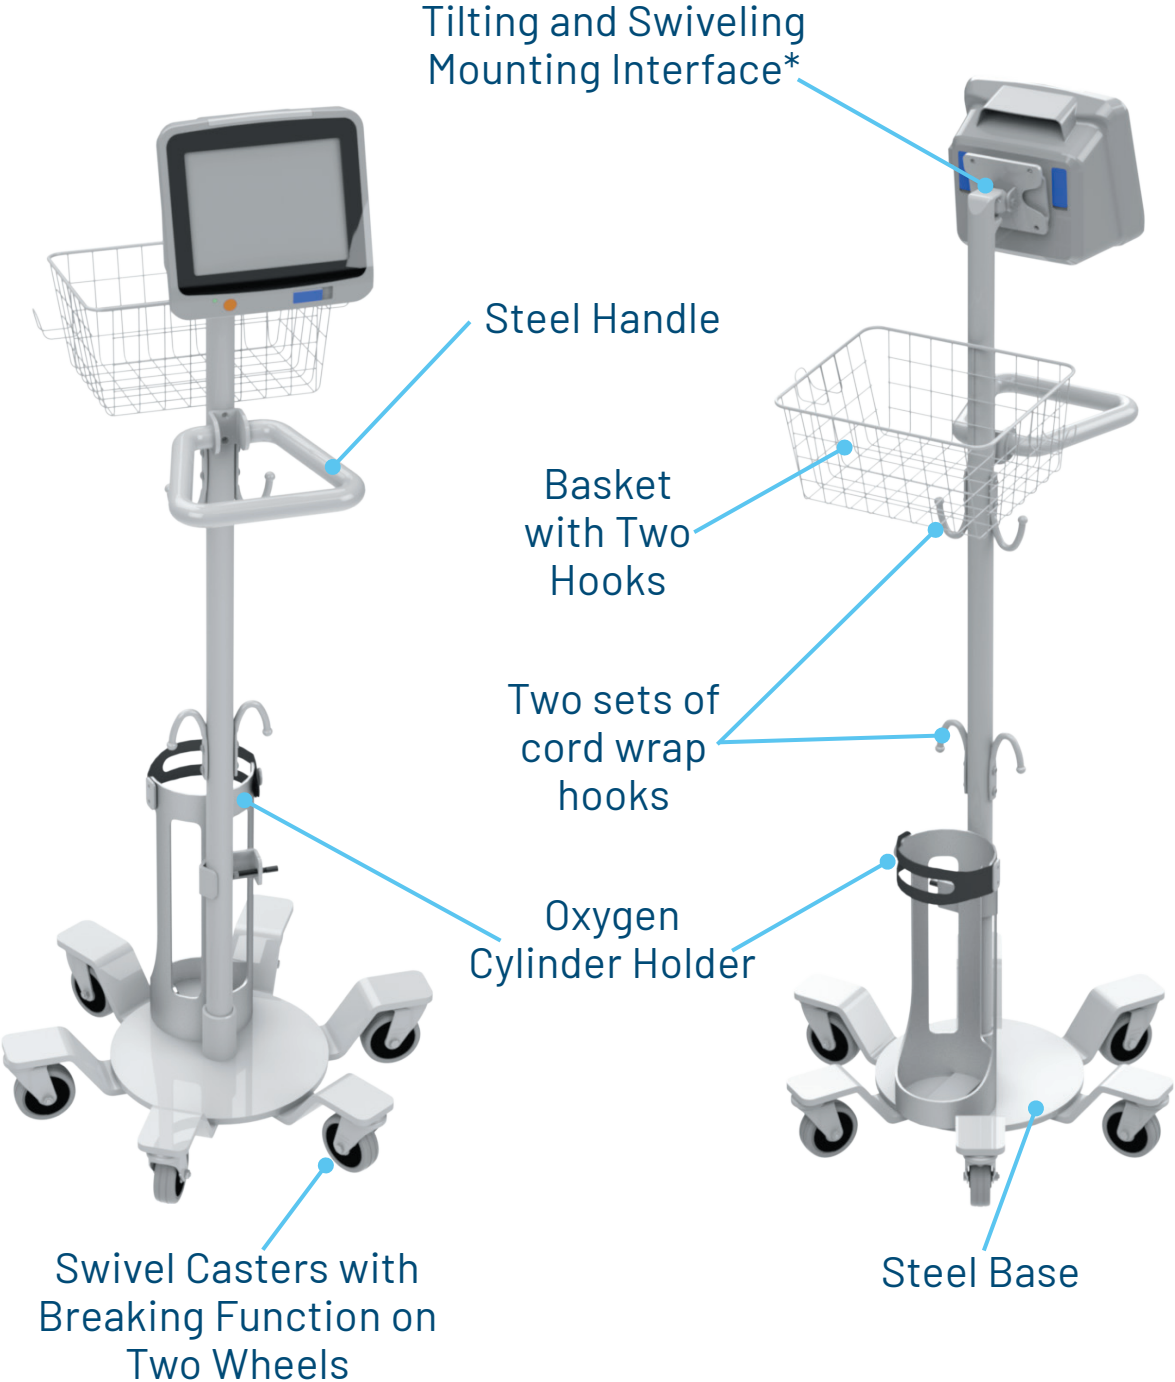

The Medical Roll Stand-100 is a flexible solution designed to mount medical devices for hospital and clinical environments.

The Medical Roll Stand - 100 features a robust pole structure and accessories that enhance versatility during patient care. Its six-legged steel base with a low center of gravity provides high stability. Its silent swivel casters allow for easy intra-hospital mobility.

At Technimount Medical, we understand that healthcare professionals need products that make their everyday practices more efficient. We design and develop quality solutions which are flexible and easy to use, allowing you to concentrate on what matters most - patient care.

TECHNICAL SPECIFICATIONS

Product Name	Medical Roll Stand - 100
Product Description	Medical roll stand designed for intra-hospital mobility of medical devices, oxygen cylinder, and accessories.
Compatibility	Customizable display mounting interface allows for a large range of medical device compatibility
Environment of Usage	Hospital/Clinic (for indoor use only)
Product Material	<ul style="list-style-type: none">• Steel 1023• Urethane• Nylon Polyamide 6
Product Finish	White powder-coated paint
Certification Testing (with an Electrical Medical Device Installed)	Designed to comply with IEC 60601-1
Environmental Regulations	Compliance with RoHS 2, RoHS 3
Chemical Compatibility	Latex Free
Mounting Interface*	<ul style="list-style-type: none">• VESA 75 x 75 mm / 100 x 100 mm• 180° Tilt and swivel angle
Features	<ul style="list-style-type: none">• Tilting and swiveling mounting interface• Ergonomic steel handle• Two sets of steel cord wrap hooks for cable and hose management• Basket with 2 hooks• Quick-installation oxygen cylinder holder• Steel base with white powder-coated paint• Six 3-inch swivel casters including 2 with breaking function
Weight of the Cart Only	43.5 lb (19.73 kg)
Maximum Load Capacity	<ul style="list-style-type: none">• 1 Medical device• 1 Oxygen cylinder
Physical Overall Dimensions	<ul style="list-style-type: none">• Steel Base with 6 legs and casters: Diameter 21 in (534 mm)• Height without medical device: 49.25 in (1251 mm)• Basket dimensions: Width 11 in (280 mm), Depth 8.6 in (219 mm), Height 5.2 in (133 mm)• Basket height from floor: 41.5 in (1055 mm)• Maximum cylinder diameter: 4.7 in (120 mm)
Packaging Dimensions	Width 42 in (1067 mm), Depth 22 in (559 mm), Height 6.25 in (159 mm)
Part Number	MRS-100-00-10
Other Models and Configuration Options	Contact Technimount Medical Customer Service for more information or for other options at customerservice@technimount.com

*Customizable for different medical devices

HEALTHCARE IS OUR PRIORITY

FEATURES

- ✓ Designed for medical devices in hospital and clinical environments
- ✓ Robust steel structure and handle with medical grade Powder-coated paint
- ✓ Tilting and swiveling mounting interface
- ✓ Two sets of cord wrap hooks for power cable and hose management
- ✓ Quick-installation oxygen cylinder holder
- ✓ Steel base with 6 legs and 3-inch swivel casters including 2 with breaking function

BENEFITS

- + Improved mobility of medical equipment and accessories
- + Robust steel pole securely holds medical devices, oxygen cylinder, connectors and accessories
- + Powder-coated paint is resistant to biological fluids and a broad range of disinfecting solutions
- + Allows access to medical device controls from different angles
- + Quick adjustment of oxygen cylinder holder
- + Low center of gravity design provides increased stability
- + Silent, smooth-gliding casters for easy movement
